## The San Francisco Primaries.

The result of the Republican primary graphed, a victory for the Higgins wing of the party. That boss knocked out the Chute-Conroy gang, electing two-thirds of the delegates to the State Convention. The fight was a hard one, and the de-was only the verdict of accidental death to be returned by the jury, together with the facts that Jeff. The sand citizens did not participate in the primary fight, and says that the repeaters and stuffers were out in full force, and that many arrests for illegal voting were made.

The result was set down in our distches in Sunday's TIMES as a letter from London concerning the late Home Rule campaign, says among other things:

"One of the incidents of the campaign is the late." things:

"One of the incidents of the campaign that will surely interest California is the candidacy of J. Drew Gay. Indeed, nothing whatever is said by the Chronicle indicating what gubernatorial candidate received a majority, nor is any apportionment of delegates among the different candidates made by that acute journal It may be that when the smoke of the preliminary skirmish clears away, the result will show up in figures somewhat different from those already given.

One fact is apparent on the face of things: The war of factions in San Francisco is a fierce and whoever actually carried off the political plunder in Saturday's fight may possibly find it an expensive viotrry. The wrath of the opposing faction is at white heat, and threats of "getting even" are heard from the camp of the Chute-Conroy-McCord combination. All this will tend towards still further inharmony, and the "ruction" will be pretty sure to be carried into the State Convention here. The quarrel will be an unseemly one, such as other state conventions have witnessed, coming from the San Francisco delegations. In this state of the case, it will be What Los Angeles Thinks. om the San Francisco delegations this state of the case, it will be the side of either faction without

ESCONDIDO.

THE PARADISE OF SOUTHERN CALIFORNIA! the New Hotel is Now Open and Ready for Guests.

The famous Escondide Tract contains 12,514 acres located 35 miles north of San D ego d 12 miles east of Encinitas Station on the California Southern Railroad. The soil has no perior; the water supply is abundant and crops have never failed; bearing orohards and neyards attest the truth of the assertion that irrigation is not necessary in "The Sun-kissed Vale of the South," "The Sun-kissed Vale of the South,"

What has been done? The townsite of Escondido is in the center of the tract and embraces among other improvements a fine hotel, costing with furniture \$20,000; a public schoolhouse of brick will cost \$8000. Lands to the value of \$250,000 have been donated by the company as an endowment for the Escondido College. Forty buildings have been built in sixty days. Daily stages cannect with the California Southern Railway at Encintes Station Fertile roil, no irrigation, equable climate.

Bend the following opinion of Escondido from Gen Stuart Stanley, late of Her Malesty's India Service: "For a happy combination of climate, soil and scenery, united to a commanding commercial situation, Escondido; stands wholly unrivailed in that beit of sunshine extending from Los angeles to the frontie of Mexico."

San Fernando Lands

LOS ANGELES, CAL.

The San Pernando Land and Water O mpany, of Los Angeles City and County, Cal., have placed upon the market 20,000 acros of land, as shown in the abov

map. The land is the northeasterly part of the Rancho and Mission San Fernando, recently owned by ex-Senator Maclay. The tract begins about 15 miles from Los Angeles City, and extends to a point

25 miles distant from the city. The S. P. R. B. runs

icst-class rich loam, free from adobe or baking clayse There is no better, warmer or more fertile soil in Southern California than this. The Company has

surveyed off some 2000 scres in 40-scre lots, opposite the depot at San Fernand Station. With a rose-grading machine the Company grades all streets and roads. Water is taken from artesian wells in iron

pipes, and supplied to the land at the rate of one

inch, miners' measure, under a 4 inch pressure, to each 10 scres of land. This furnishes 54 gallons of

water per hour per acre, steady flow. A 14-inch fron pressure pipe conducts the water of the Pacoima to the reservoir and connects with the iron irrigating

pipes. Substantial stone reservoirs have been constructed to store the water in when not in use. The

Company has also burned a kiln of 400,600 brick, and will furnish brick at \$8 per 1000 to persons purchasing

10 acres or more, for erecting residences on the land purchased. The Company desires none but brick

donated \$150,000 of the purchase price of the rancho o endow the College of Theology of the University of Southern California, to be established on Block 129, as shown on the map. Senator Maclay expects to

idences on the whole tract. The land is sold at \$150 per acre, one-fourth cash, balance in one, two and three years, interest at six per cent. per year.

FINANCE AND TRADE.

The week opened very quietly, to-day being quite generally observed as a holi-day, in honor of the visit of the veterans. The Mark Lane Express, in its review the British Grain trade, during last

week says:

"The unsettled weather has retarded harvesting, which will now be very late. Wheat has rusted and mildowed to an extent greatly affecting the quality, and everything points to a deficient Wheat crop. English Wheat is firmer, and prices are against buyers. Bales of English Wheat during the past week were 44.120 quarters at 32s. 6d. against 37.610 quarters at 32s. 6d. during the corresponding period last year. The foreign Wheat trade is inanimate. Corn on spot is against buyers. Fourteen cargoes of Wheat arrived; three were sold, incliding one of California, which is infornia at 33s. 3d; one was withdrawn, and seven remained. Trade forward is quiet. There is inquiry for California, which is momentarily against buyers."

New York, Aug. 16.—To-day's stock market was extremely dull, especially after the first hour. To day's market reflects nothing but the operations of small cliques interested in the market. First pieces showed insignificant changes only from Saturosy evening's close, and they were about evenly divided he ween gains and losees. Learly cealings were quiet, and although some few slight advances were established immediately after opening. The entire market soon gave way under the leadership of Lake shore and Western Union, and the market closed heavy at or near the lowest figures reached.

# THE UNIVERSITY TRACT.

We are now offering lots in this beautiful part of the city and wish to call special attention to the many advantages this property has. The lots are large, being 65x130 feet. The University of Southern California, just being completed at a cost of \$50,000, is situated in the center of this tract. A fine church and a large number of fine residences have already been built, and many more will be built this fall. The large campus surrounding the University building is to be laid out by one of the best landscape gardeners, and it will be one of the most beautiful spots in all California. This tract has street cars and railway running through it. It is situated on the finest drive in the city, and only a short distance from the "Longstreet Place" Lots are selling rapidly at \$400 to \$450 for inside, and \$500 for corner lots. It is the cheapest and most desirable property in Los Angeles. We will take pleasure in showing the property to any who will call at our office.
